PRE-WAR DAYS ARE QUICKLY RESUMED

Canadians Are Apt to Forget That the Struggle is Not Finished Yet.

It's funny how quickly we slip back into the old grooves of life, even though jarred out of them by years of war and wrenched by sad partings.

Isn't it true that in most Canadian homes life goes on today pretty much as it did five black years ago, the stalwart sons come to the breakfast table with the same noisy greetings, though there is, perhaps, a shade deeper in their voices? Returned from war, the head of the family sits in his old accustomed place at story time, perhaps bringing a new kind of prince and knight for the youngsters.

With the men home life goes on pretty much as before. The harsh old realities of war are slipping into the misty background. We can never forget the price in flesh and blood; we could easily forget the price in treasure.

When we hear of plans for the Victory Loan, 1919, we are brought back with a jolt to the hard fact that the cost of Canada's Victory has not been fully paid, and that the future lays burdens upon us also.

The Navy League of Canada

The Navy League of Canada is having a special canvass for membership and funds throughout the Dominion, commencing October 20th, to 24th. Alberta has been asked to raise \$25,000. Committees are being appointed in every town and village to help in carrying out the work. The clergymen of all denominations are also being asked to make special mention in their sermons on Sunday, and also to commemorate Nelson Day, October 21st.

Last year the Navy League raised \$1,500,000 to assist in carrying forward the work amongst dependents of the brave sailors who gave their lives in the war—many of their families were assisted and their children sent to school and college. Homes, asylums, schools and other sailor institutions were helped or endowed.

This year the League will endeavor to raise \$500,000, largely for their Canadian work, and for the men of the merchant marine, sailors' homes and institutions, educational work and boys' naval brigades.

Every citizen of Canada should be vitally interested in this work, particularly as the sailors did so much in protecting our soldiers, our produce, and our country.

Full particulars of the work can be obtained from J. A. Irvine, 201 Leeson & Linchman Block, Calgary.

CINCINNATI REDS WIN WORLD'S BASEBALL CHAMPIONSHIP

Chicago, Oct. 9.—The Cincinnati Reds are the champion baseball team of the world, having defeated the Chicago White Sox here today for the fifth time in the world's series of 1919. Today's score was 10 to 5. The Reds indulged in a hitting field day, driving two Chicago pitchers from the mound and hitting ten third one-hits. The American League secured a rally by combining several clean hits off Eller with an unfortunate error by Cincinnati, when Naeve lost the ball in the sun, and while they tallied four runs, they were still far behind. The Reds made 16 hits, the highest total for one game during the series. The game was also the longest of the series, lasting 2 hours and 22 minutes.

Chicago won three games of the series.

The G. W. V. A. Bonus Plan

The new re-establishment bill prepared by the special re-establishment committee at Ottawa and approved by the Dominion command of the G. W. V. A. for presentation to the parliamentary commission, provides for the granting of gratuities to the total sum of \$397,800,000, the largest sum payable to one man being \$2,500.

We have Victory, but it is not paid for yet.

Schuster-Davis Musical Comedy Company Coming to Rex

Following is a clipping from the Calgary Herald announcing this stage show which played the Grand Theater, Calgary, last week:

On Thursday, Friday and Saturday next the attraction at the Grand will be the Schuster-Davis Musical Comedy Company, presenting two musical plays, "Make Yourself at Home," Thursday evening, and "My Pretty Baby," Friday evening and Saturday matinee and evening.

The story of "Make Yourself at Home" concerns a young American who is deeply in debt to a Jewish money lender, and is living on his great expectations of inheriting his uncle's wealth. The uncle lives in the far East, dies suddenly, and the youth finds that to get the fortune he must marry the uncle's widow. How the money lender finances an expedition to search for the hidden fortune, how an amateur detective joined in the search, assisted by his best girl, all assist in the complications which ensue and afford many opportunities for comedy. The musical and dancing numbers are very plentiful. The scenic production is all that could be desired and the wardrobe is gorgeous.

"My Pretty Baby" is described as a super-review of beauty, youth and folly, and was one of New York's big musical comedies of last season. This organization has a singing and dancing chorus that is far superior to any seen with a popular priced musical organization. Not only is the collection a wonderful aggregation of feminine beauty, with charm of manner and ability to dance and sing, but they wear their almost numberless changes of costume with ease and grace seldom seen in any chorus.

Coming to the Rex Theater, Clareholm, Tuesday, Oct. 28.

In Police Court

On October 7th a well known farmer of the Clareholm district appeared before T. D. Lewis J.P. at Clareholm charged with being drunk on Oct. 6th at Clareholm. A second charge of operating a motor vehicle while intoxicated was laid by Corp. Vise A. P. P.

Accused pleaded guilty on both charges and His Worship imposed a fine of \$20 and costs on each charge and warned accused of the dangers attendant to operating an auto when in such a condition.

Chas. Benson was also convicted of being drunk and contributed \$20 and costs at the same time.

Practically every Canadian soldier killed on the western front during the great war has had decent burial in a proper cemetery with the grave marked plainly and suitably, says E. J. Glensk of Vancouver who spent several months as Y. M. C. A. secretary with the Canadian War Graves Detachment until that unit was disbanded and the work turned over to the British authorities for completion. Mr. Glensk says the work is being done most thoroughly, not the slightest sign that would indicate the presence of a body underneath being missed by the successive waves of men who search every foot of the ground. The Y.M.C.A. had three secretaries with the detachment, each equipped with a moving picture machine, a tent for reading and recreation room, and a canteen.

Thos. Smith, superintendent of the soldiers' settlement board, Calgary branch, along with Inspector Williams visited this district on Monday last, and in the evening met a number of local returned men, explaining many points regarding the settlement loans, and wished them all success with their new club rooms now being fitted up.

The snow storm this week brought with it an unusual degree of cold for this early in the fall. There must be hundreds of bushels of potatoes frozen in the ground. Thermometers on the street showed 24 degrees of frost on Friday morning.

Strike In Britain A Serious Problem

London.—Though it would be premature to abandon hope of a settlement of the railway strike, the situation has disappointed to the expectation of some arrangement resulting from the numerous conferences between the labor representatives and the government, and the position is again grave. James Henry Thomas, general secretary of the National Union of Railwaymen, announced that the efforts to re-open the negotiations had collapsed, owing to government refusal to go beyond its previous offer, but appended that other unions than the railwaymen were continuing their efforts at mediation, but, while the strike continued, the railroad men would do nothing to hinder mediation.

After a conference of the executive of the railwaymen and transport workers, Mr. Thomas issued a statement in which he said:

"Hopes of a settlement are broken. The negotiations have been interrupted, inasmuch as the government offer does not differ from that of September 26.

The government is increasing its organization to ensure service and under emergency powers have closed Regent's park to the public, and are using the park as a clearing center for market produce, frozen meat and fish, in the same way that Hyde Park is being used for the distribution of milk.

Both the Prime Minister and Secretary Thomas issued statements, which were shown on every motion picture screen, setting forth briefly the respective attitudes of the government and the union.

The Premier declared that the government was not engaged in fighting trades unions, but to prevent an attack against the life of the community. Secretary Thomas declared that the railwaymen were not fighting the community, but against a conspiracy to lower wages.

Women of Archangel Are Buying Poison

Ingenit to Kill Themselves Rather Than Fall Into Hands of the Reds

Paris.—Chemist shops at Archangel are openly selling poison to many young women who are buying it with the expressed intention of killing themselves rather than fall into the hands of the Bolsheviks, according to a United States officer who has just arrived from Northern Russia. While several shipments of Bolsheviks have been deported from Archangel by entente powers, the majority of the anti-Bolshevik population refuse to leave, saying it is impossible to go penniless into a strange country.

Notables Marked For Assassination

Testimony Given By Former Military Attaché of German Consulate

San Francisco, Cal.—Charles M. Schwab, Sir Cecil Spring-Rice, former British Ambassador to the United States; Lord Fisher, of the British Admiralty; the late Lord Kitchener, and the British vice-consulate at Ensenada, Mexico, were marked for assassination by agents of the German government, according to sworn testimony given by former First Lieutenant Wilhelm von Brincken, formerly military attaché at San Francisco, to Commissioner of Immigration Henry M. White, at Washington.

A transcript of the statement was received here by Attorney Henry M. Owens, von Brincken's legal adviser in San Francisco. Von Brincken is serving a two-year sentence in the federal penitentiary at McNeil's Island for the part he played in the so-called Hinda conspiracy case.

D'Annunzio Aids Regulars

Blockade of Fiume Is More Severe Than Formerly

Rome.—Orders closing the Jugo-Slav frontier have led to the chief of staff of the 26th Italian regiment arriving at Ancona to receive from Captain d'Annunzio's chief of staff and discuss measures to be taken. This has resulted in the sending of orders to Captain d'Annunzio's volunteers to hold the armistice line according to the Epoca, which adds: "The unwillingness to receive cooperation between the d'Annunzio troops and the regulars."

The correspondent of the Epoca says the blockade of Fiume is more severe than formerly, even mail being held at the frontier. There is sufficient food for three months for the population of Fiume.

Only 13
Toronto.—Under the order of the Board of Commerce, the price of milk will be increased here. Instead of 15 tickets for \$1, the consumers will now receive 13 tickets for the same sum, or \$68.00 per year.

The board permitted an increase in the price of milk, which, on the basis of consumption of 6,000 cans per day, means an increased income to the farmers of \$2,500 a day, or \$908,000 per year.

Retailers Will Be Called To Give Evidence

Toronto.—Another sitting of the Board of Commerce will be held here when Judge Robson, chairman, W. C. O'Connor, vice-president, and E. A. Acland, deputy minister of labor, will be the commissioners present. The probe will endeavor to determine the end of the high price of wearing apparel. Retailers will be called to give evidence, and the costs will be worked back to the manufacturer to see where the great spread comes in the prices of all textiles at the present time.

The sitting of the court promises further interest in the fact that the "big five" packers will be on hand to fight to the last ditch the order bringing down the price of wholesale pork products.

Politics In Luxembourg

Retention of Grand Duchy Charlotette Is Now Quite Certain

Luxembourg.—Balloting in favor of the retention of Grand Duchy Charlotette as ruler, and of the establishment of an economic alliance with France instead of with England, has resulted in a decisive victory for the former. At the start of the second day's count of votes cast in the plebiscite to determine the future of the Grand Duchy.

The French economic alliance continued to lead in favor by a vote of 10,000 to 1,000. The vote of 10,000 to 1,000 was recorded for the Grand Duchy and 2,866 for the republic. 10,021 votes were cast in an economic alliance with France, and 3,330 for Belgium.

U. S. Shipyard Tied Up Now

About 60,000 Men in Grip of Great Industrial Struggle

San Francisco.—Involving approximately 60,000 men, including both skilled and unskilled labor, San Francisco, Oakland and Alameda are in the grip of industrial disturbances which have greatly hampered industry in the entire San Francisco Bay district. Shipyard and iron trades workers, tailors, shoemakers, taxicab drivers, clerks, street railway employees, ferry boat employees and river steamer men are affected.

The most serious development in the labor situation went on at 25,000 shipyard and iron trades workers in Oakland and Alameda, and 30,000 in San Francisco, struck. The shipyard and iron workers went out in an effort to force the payment of a wage increase of eight cents per hour.

Union officials say the tie-up of the shipyards is complete. No \$120,000 worth of iron was being turned out by the California Metal Trades Association.

Adriatic Question Must Be Cleared

French Government Approves International Show

Planned to Bring Producers and Buyers Together

Paris.—An immense project of erecting a large building on the banks of the Seine in Paris, in which will be held a permanent exhibition designed to bring together the producers and buyers of the world, has found the support of a French financial conference. The object is to promote commercial intercourse between allied and friendly nations. The building, which will be constructed by the Quai de Passy, will probably cost \$20,000,000. There will be held a continuous world's fair. The proposition has the approval of the French authorities. Twelve and a half acres of land have been secured for a site. The structure will have a frontage of 845 feet and a depth of 600 feet. The floor surface will be nearly two and a half million square feet.

Bela Kun Not Wanted

Boshevik Agitator Has to Be Transferred to Avoid Violence

Milan.—Bela Kun, who was interned by the Austrian Government at Heideheim, near Rast, had to be transferred. The inhabitants of the neighboring villages, chiefly peasants, were so exasperated at the presence of the notorious Hungarian Bolshevik director that they held a meeting of protest and threatened to commit violence. The Austrian Peasants' League, the officials of the Italian tri-act made representations at Vienna, and the government considered it wise to remove the objectionable prisoner. Bela Kun was, with out warning, transferred to another habitat, and the locality is kept secret to avoid similar protests.

Shortage at Calgary Is Acute, and This Idea Is Put Forward

Calgary.—The adoption of the sugar card rationing system used in Britain was advocated here as a solution of the acute shortage which has become acute, when one of the local dealers at the price probe now being carried on stated that he believed this would be the only way of guaranteeing an equitable distribution of what sugar was coming into the city. Some of the whole sale dealers having received no shipments of sugar, the probe into the sugar situation will conclude here Saturday or within other lines of business will be taken up.
